

Now employees and tenants can access training 24/7 from any computer connected to the internet or through your airport's LAN. Courseware is tailored to your airport by our in-house production team. Begin training in 30 days or less with our Quickstart program.

Unlimited Users

Customized to Your Airport

Integrate with Badging Systems

## SYSTEM HIGHLIGHTS

# iLS

The Interactive Learning System (iLS™) is a total training solution delivering computer-based training with real-time recordkeeping and management reporting. The iLS™ accommodates an unlimited number of badgeholders and can be integrated with badging and credentialing systems using our optional API. Flexible installation options require no special hardware to meet airports' FAA and TSA regulatory requirements.
